INSTRUCTIONS:

To follow up with the previous matching activity, abbreviations from the Newcomers' guide have been listed in a chart with topic headings. Students are to put the abbreviation under the correct topic heading. An additional column is for students to write in the topic if the abbreviation doesn't fit into one provided.

There are two versions of this worksheet. The first one specifically follows the Abbreviations Matching worksheet previous, with its abbreviations from page 105 of the Newcomers' Guide. The second, advanced version has abbreviations from the entire Newcomers' Guide text, and students are to look up the abbreviation and/or full form in the index to find on which page there is more information.

REQUIRED STRUCTURES:

REQUIRED VOCABULARY: *topic, column*

GROUP SIZE: individual or pairs

HANDOUTS: Abbreviations Categories worksheet (basic or advanced)

OTHER MATERIALS REQUIRED: Newcomers' Guide for reference

RELATED GRAMMAR:

FOLLOW-UP ACTIVITIES:

Abbreviations Categories-advanced worksheet: students look up the abbreviations in the index to find more information about the vocabulary.
